

REWARD PROGRAM

10.000x and more is possible

In your personal dashboard, you can constantly find out, how many reward tokens you have already received.

The transfer of **SKYGATE** TOKENS to your wallet will only occur after the conclusion of the pre-sale phase, as only then will it be determined how many Reward Tokens you are entitled to. There will be a one-time token transfer, as continuous allocation of Reward Tokens would incur high transfer fees and significantly diminish your reward. You can, of course, request the transfer of your tokens at any time during the pre-sale phase. We will accommodate your request. However, in this case, you will be excluded from the Reward Program.

Participants in the reward program will be informed by email about the status of the reward tokens at the end of the pre-sale phase. All information is based on today's market values and represents a non-binding estimate for the future! Information on any performance of the reward program and on a possible increase in the invested capital are not binding information, but merely representations (non-binding estimates) of a possible development potential, which, however, may depend on various factors, over which, however, Skygate has no influence. Legal recourse is excluded.

In the pre-sale phase, new members of our community have the opportunity to participate in our exceptional "Reward Program".

How can you participate in our "Reward Program"? After you have bought **SKYGATE** TOKENS (minimum € 100,00) simply obtain a personalized link, which you can post on your social media platforms. Posting multiple times increases your chances.

When your followers view our offer and also decide to purchase our tokens, you will receive a **reward of 10%** of the tokens purchased through the personalized link provided to you as a token of appreciation.

But there's more. If the new community members recruited through your social media activity also decide to participate in our Reward Program (which can be assumed with high probability), then you will receive a reward from all resulting new community members and associated token purchases. You will receive a reward (**2,5%** in **SKYGATE** TOKENS) for your downline up to the **6th level**.

We are delighted to welcome you as a participating community member in our Reward Program during the pre-sale phase.

Can you imagine how much you can earn from sharing our advertising on social media?
